

Gain Pasture Dairy Feeds

Premium Spring Breeder Nuts	14% Protein	Feed rate 2.5-3.75 kg/day
------------------------------------	--------------------	----------------------------------

- ❑ **Innovative pasture supplement with protein protection, to support milk solids and fertility.**
- ❑ **High slow-release energy level** promotes high grass intakes and high milk solids output.
- ❑ **High-Digestible-Fibre** level helps prevent Acidosis and low milk-fat on low-fibre lush spring grass.
- ❑ **Maize Meal** provides rumen-bypass starch to help promote milk protein production.
- ❑ **NOVATAN Protein Protector** increases protein available for milk protein production.
- ❑ **NOVATAN Protein Protector** reduces pasture scouring and helps fertility.
- ❑ **Protected minerals** improve availability on rapid-throughput grass based diets.
- ❑ **Bioplex protected Copper** guarantees availability to help support fertility.
- ❑ **Bioplex protected Zinc** helps support hoof and udder health.
- ❑ **Selplex protected Selenium** helps improve cell counts (SCC), mastitis and fertility.
- ❑ **Full rate minerals** included in 2.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/2.5kg** helps prevent Grass Tetany.

Master Graze Nuts	14% Protein	Feed rate 2.5-3.75 kg/day
--------------------------	--------------------	----------------------------------

- ❑ **High-energy pulp and maize based supplement to support milk yield and fertility for high yields.**
- ❑ **Pulp digestible-fibre** helps support milk fat yield on low-fibre lush spring grass.
- ❑ **Live Yeast** helps maintain body condition and milk yield and protects against Acidosis.
- ❑ **Full rate minerals** included in 2.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/2.5kg** helps prevent Grass Tetany.

Super Graze Nuts	16% Protein	Feed rate 2.5-3.75 kg/day
-------------------------	--------------------	----------------------------------

- ❑ **Pulp-based pasture feed with Cal Mag and minerals.**
- ❑ **Full rate minerals** included in 2.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/2.5kg** helps prevent Grass Tetany.

Prime Graze Nuts	14% Protein	Feed rate 2.5-3.75 kg/day
-------------------------	--------------------	----------------------------------

- ❑ **Competitively priced high-pulp pasture feed with Cal Mag and minerals.**
- ❑ **Full rate minerals** included in 2.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/2.5kg** helps prevent Grass Tetany.
- ❑ **Available also in 25kg bags.**

Pasture Graze Nuts	12% Protein	Feed rate 2.5-3.75 kg/day
---------------------------	--------------------	----------------------------------

- ❑ **Competitively priced high-pulp pasture feed with Cal Mag and minerals.**
- ❑ **Full rate minerals** included in 2.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/2.5kg** helps prevent Grass Tetany.

Pasture Micro Nuts	12% Protein	Feed rate 1.5-2.0 kg/day
---------------------------	--------------------	---------------------------------

- ❑ **Concentrated feed with full Cal Mag and minerals for low-rate feeding on plentiful grass.**
- ❑ **Full rate minerals** included in 1.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/1.5kg** helps prevent Grass Tetany.
- ❑ **Available also in 25kg bags.**

16% Super Dairy Nuts	16% Protein	Feed rate 4.5-9.0 kg/day
-----------------------------	--------------------	---------------------------------

- ❑ **16% protein dairy feed for early turnout period, when cows are at grass by day.**
- ❑ **Agolin** improves feed efficiency and increases performance.
- ❑ **Protected minerals** improve availability on rapid-throughput grass based diets.
- ❑ **Full rate minerals** included in 4.5kg daily feed.
- ❑ **Calcined Magnesite 2oz/4.5kg** helps prevent Grass Tetany.
